

Sat, 25 June 08:30 – 10:30	Parallel symposium: The evidence-based indications of "biotics" Chairs: Flavia Indrio (Italy), Yvan Vandenplas (Belgium)	120 min
08:30 - 08:52	Which probiotics to use and when?	Christian van den Akker (The Netherlands)
08:52 - 09:02	Abstract: Dysbiosis in children with neurological impairment and long-term enteral nutrition	Martina Chiara Pascuzzi (Italy)
09:02 - 09:24	What is the evidence for synbiotics?	Rok Orel (Slovenia)
09:24 - 09:34	Abstract: Changes in gut microbiota associated with discontinuation of exclusive enteral nutrition in children with Crohn's disease - one year follow-up	Sara Sila (Croatia)
09:34 - 09:56	What about other "biotics"?	Maria Carmen Collado (Spain)
09:56 - 10:06	Abstract: Postnatal nutrition impacts the maturation of the intestinal endocrine function and the microbiota-gut-brain communications in a minipig model	Mathilde Yverneau (France)
10:06 - 10:28	Why do recommendations for "biotics" differ?	Zvi Weizman (Israel)

Programme subject to change; version as of May 2022; all stated times correspond to Central European Summer Time (CEST)

1

Sat, 25 June 08:30 – 10:30	Parallel Symposium: Functional GI disorders Chairs: Marc Benninga (The Netherlands), Kornilia Nikaki (United Kingdom)	120 min
08:30 - 08:52	Pharmacological treatment for functional abdominal pain disorders in children	Morris Gordon (United Kingdom)
08:52 - 09:02	Abstract: Adaptation and utilization of the Structured Assessment of Gastrointestinal Symptom Scale (SAGIS) as a validated patients' reported outcome measure, to support standardized assessment and follow-up in children and adolescents with gastrointestinal complaints	Johann Hammer (Austria)
09:02 - 09:24	Brain-gut therapies for paediatric functional gastrointestinal disorders	Arine Vlieger (The Netherlands)
09:24 - 09:34	Abstract: Determining the placebo response rate in randomized controlled trials for paediatric functional constipation: A systematic review and meta-analysis	Koen Huysentruyt (Canada)
09:34 - 09:56	Functional gastrointestinal disorders and joint hypermobility syndromes - is there a link?	Stefan Buderus (Germany)
09:56 - 10:06	Abstract: Prognostic factors and natural history of non-ige mediated gastrointestinal food allergy: results from the first year follow-up of the NIGEFA project	Laura Carucci (Italy)
10:06 - 10:28	Role of diet in the management of FGID	Sara Sila (Croatia)

Programme subject to change; version as of May 2022; all stated times correspond to Central European Summer Time (CEST)

2

Sat, 25 June 08:30 – 10:30	Parallel Symposium: Motility disorders in different GI-disorders Chairs: Silvia Salvatore (Italy), Nikhil Thapar (Australia)	120 min
08:30 - 08:52	Motility abnormalities in EOE: Underlying mechanisms and potential deterioration in non-compliant patients	Michiel Van Wijk (The Netherlands)
08:52 - 09:02	Abstract: Gut and brain effects of supplemental insulin-like growth factor-1 in preterm pigs as models for infants	Kristine Holgersen (Denmark)
09:02 - 09:24	The role of neuroimmune interaction in the stomach/small bowel in patients with dyspeptic symptoms	Osvaldo Borrelli (United Kingdom)
09:24 - 09:34	Abstract: Predicting enteral autonomy in Short Bowel syndrome in a large multicenter multinational cohort	Natascha S. Sandy (Canada)
09:34 - 09:56	ISB-C or constipation, why does it matter?	Efstratios Saliakellis (Greece)
09:56 - 10:06	Abstract: Predictors of gastrooesophageal reflux disease in oesophageal atresia at the age of 6 years: a prospective national population-based study	Madeleine Aumar (France)
10:06 - 10:28	Nutritional management in gastroparesis and PIPO	Anna Rybak (United Kingdom)

Programme subject to change; version as of May 2022; all stated times correspond to Central European Summer Time (CEST)

3

Sat, 25 June 08:30 – 10:30	Parallel symposium: Joint Symposium HEPCOM and IBD Porto Group: When two giants collide: IBD and Liver Chairs: Marianne Samyn (United Kingdom), Jorge Amil Dias (Portugal)	120 min
08:30 - 08:52	Liver / Gut Axis: The shared "science" of IBD and associated liver disease	Kaija-Leena Kolho (Finland)
08:52 - 09:02	Abstract: Prognosis of paediatric onset inflammatory bowel disease associated with primary sclerosing cholangitis: a population-based study (GASTRO)	Madeleine Aumar (France)
09:02 - 09:24	Treatment of established liver disease in a patient with IBD: What are the roles of immunosuppression, biologics antibiotics & ursodeoxycholic acid	Xavier Stephenne (Belgium)
09:24 - 09:34	Abstract: Children with autoimmune liver disease have limited access to age-appropriate drug formulations, results from a survey across Europe (HEP)	Marianne Hørby Jørgensen (Denmark)
09:34 - 09:44	Abstract: Mortality among patients with paediatric onset immune mediated inflammatory disease – a nationwide study from Denmark (HEP)	Mikkel Malham (Denmark)
09:44 - 10:28	Tandem talk: Priorities of care	
	A liver patient with potential or established IBD – hepatologist (18 min)	Emer Fitzpatrick (Ireland)
	An IBD patient with potential or established liver disease – GI (18min)	Patrick Van Rheenen (The Netherlands)

Programme subject to change; version as of May 2022; all stated times correspond to Central European Summer Time (CEST)

4

Sat, 25 June 08:30 – 10:30	Parallel Symposium: Endoscopy Chairs: Luigi Dall'Oglio (Italy), Matjaž Homan (Slovenia)	120 min
08:30 – 08:52	Nasal endoscopy	Joel A. Friedlander (USA)
08:52 – 09:02	Abstract: Moderate correlation between Nancy Histopathology Index and clinical, laboratory and endoscopic indices of disease activity in pediatric patients with ulcerative colitis	Yaniv Faingelernt (Israel)
09:02 – 09:24	Poem for achalasia? Results in children	Valerio Balassone (Italy)
09:24 – 09:34	Abstract: Endoscopic management of oesophageal mucosal bridge in children followed for oesophageal atresia	Frédéric Gottrand (France)
09:34 – 09:56	Training the trainers and ESPGHAN endoscopy 'Certification'	Priya Narula (United Kingdom)
09:56 – 10:06	Abstract: Distribution of eosinophils in the gastrointestinal tract in children without an organic disease	Vaia Zouzo (United Kingdom)
10:06 – 10:10	Video case 1	Cosimo Ruggiero (Italy)
10:10 – 10:14	Video case 2	Rosalind Rabone (United Kingdom)
10:14 – 10:18	Video case 3	Andreia Nita (United Kingdom)
10:18 – 10:22	Video case 4	Natalia Nedelkopoulou (United Kingdom)
10:22 – 10:26	Video case 5	Dominique Schluckebier (United Kingdom)

Programme subject to change; version as of May 2022; all stated times correspond to Central European Summer Time (CEST)

5

Sat, 25 June 2022	Keynote Lecture Nutrition Chairs: Jiri Bronsky (Czech Republic)	30 minutes
11:40 – 12:10	Starvation and its effects on the gut	Paul Kelly (United Kingdom)

Programme subject to change; version as of May 2022; all stated times correspond to Central European Summer Time (CEST)

6

Sat, 25 June 12:15 – 13:30	Clinical practice in Nutrition: Is it possible to define optimal growth in preterm infants? Chairs: Gitte Zachariassen (Denmark), Wei Cai (China)	75 min
12:15 - 12:40	Which growth charts should be used to assess postnatal growth?	Christopher Fusch (Germany)
12:40 - 13:05	What body composition should we aim for from birth to discharge (or later) in very preterm infants?	Miguel Saenz De Pipaón (Spain)
13:05 – 13:30	Nutrition post discharge: Does growth status matter?	Nadja Haiden (Austria)

Programme subject to change; version as of May 2022; all stated times correspond to Central European Summer Time (CEST)

7

Sat, 25 June 12:10 – 13:40	Parallel Symposium: PIBD 2: Patient centred PIBD care Chairs: Massimo Martinelli (Italy), Tim de Meij (The Netherlands)	90 min
12:10 – 12:32	Practical strategies to improve quality of care in PIBD units	Johan van Limbergen (The Netherlands)
12:32 – 12:42	Abstract: Safety and Potential Efficacy of Escalating Dose of Ustekinumab in Paediatric Crohn's disease (the SPEED-UP study) - a multi-center study from the paediatric IBD Porto group of ESPGHAN	Anat Yerushalmy-Feler (Israel)
12:42 – 13:04	Can we currently design an "optimal diet for all our patients"?	Mark Beattie (United Kingdom)
13:04 – 13:14	Abstract: The impact of medical treatment on cancer development in paediatric onset inflammatory bowel disease – a case control study from Denmark and Finland	Mikkel Malham (Denmark)
13:14 – 13:36	What is the optimal approach to intestinal strictures in paediatric Crohn's disease?	Dror Shouval (Israel)

Programme subject to change; version as of May 2022; all stated times correspond to Central European Summer Time (CEST)

8

Sat, 25 June 2022 12:10 – 13:40	Plenary Session: Gastroenterology 2 Chairs: Christina Hauer (Austria), Ilse Broekart (Germany)	90 minutes
12:10 – 12:20	Increased incidence of early-onset IBD, but stable for VEO-IBD: a nationwide study from the epi-IIRN	Dan Turner (Israel)
12:20 – 12:30	Specific microbiota drives mucosal responses in inflammatory bowel disease	Edward Giles (Australia)
12:30 – 12:40	Predictors of response to biologics in children with Crohn's diseases: a population-based study from the epi-IIRN	Dan Turner (Israel)
12:40 – 12:50	Oxidative stress and antioxidant capacity biomarkers in adults and children with IBD: current update from OxIBDiet trial	Sara Quattrini (Italy)
12:50 – 13:00	Microdissection of oesophageal epithelium from endoscopic biopsies for tissue proteomic analysis in paediatric eosinophilic esophagitis	Marie-Luise Frank (Germany)
13:00 – 13:10	Altered antigen processing pathway in intestinal epithelial cells is the trigger of celiac disease inflammation	Luigina De Leo (Italy)
13:10 – 13:20	Prediction models for celiac disease development in children from high-risk families: data from long term follow up of the PreventCD cohort	Caroline Meijer-Boekel (The Netherlands)
13:20 – 13:30	Innate immune response and impact of transgene IL-37 in mouse intestinal organoids	Laura Kröhn (Germany)

Programme subject to change; version as of May 2022; all stated times correspond to Central European Summer Time (CEST)

9

Sat, 25 June 2022 12:10 – 13:40	Parallel Symposium: Coeliac disease pathogenesis Chairs: Marina Orsi (Argentina), Margreet Wessels (The Netherlands)	90 min
12:10 - 12:32	Mechanisms of tissue damage in CeD	Nadine Cerf-Bensussan (France)
12:32 - 12:42	Abstract: BNT162b2 mRNA COVID-19 vaccine effectiveness in patients with coeliac disease autoimmunity: real world data during mass vaccination campaign	Amir Ben Tov (Israel)
12:42 - 13:04	Evidence of a viral etiology in coeliac disease	Daniel Agardh (Sweden)
13:04 - 13:14	Abstract: Absence of nutritional complications in asymptomatic potential celiac disease children on a long-term gluten containing diet: a retrospective study	Roberta Mandlie (Italy)
13:14 - 13:36	Potential CeD as a step towards clarification of pathogenesis	Riccardo Troncone (Italy)

Programme subject to change; version as of May 2022; all stated times correspond to Central European Summer Time (CEST)

10

Sat, 25 June 12:10 – 13:40	Parallel Symposium: Novelties in paediatric Hepatology Chairs: Neelam Mohan (India), Nedim Hadzic (United Kingdom)	90 min
12:10 - 12:32	CF and CF-related liver disease in the era of CFTR modulators	Frank Bodewes (The Netherlands)
12:32 - 12:42	Abstract: Liver involvement in COVID 19 related pediatric multisystem inflammatory syndrome: a single center experience	Ilaria Battagliere (Italy)
12:42 - 13:04	Modulators in non-CF monogenic liver diseases	Emmanuel Gonzales (France)
13:04 - 13:14	Abstract: Clinical characteristics, histology and outcome of children with Obliterative Portal Venopathy: a multicentre Italian study by the SIGENP Liver Disease Working Group	Angelo Di Giorgio (Italy)
13:14 - 13:36	Gene therapy for liver disease: Are we getting closer?	Lorenzo D'Antiga (Italy)

Programme subject to change; version as of May 2022; all stated times correspond to Central European Summer Time (CEST)
