

Dear colleagues, friends and previous attendees of WG meeting,

Hope you are all doing well. During the upcoming ESPGHAN congress in Glasgow we will hold the **Clinical Malnutrition Special Interest Group (SIG)**, which I will be chairing as the new chair. Please find details of the meeting below

"I, Konstantinos Gerasimidis, Chair of the Working Group Clinical Malnutrition, invite you, "first name last name", to attend the Clinical Malnutrition at the 52nd Annual Meeting from 05 – 08 June 2019 in Glasgow."

Details meeting:

Special Interest Group Name:	Clinical Malnutrition
Specialty	Nutrition
Chair	Konstantinos Gerasimidis
Date, Time	5 th of June 2019 between 16:30 -18:00
	Open meeting
	<ul style="list-style-type: none">• All ESPGHAN members are able to register for this Working Group• Non-Members are requested to bring this invitation to the on-site registration at the Scottish Event Campus (SEC).
Location:	Scottish Event Campus (SEC), Exhibition Way, Glasgow G3 8YW
Room Name	Dochart II
Room Capacity:	50

During this meeting there will be some short presentations in which ideas can be shared; as this is an open session you can bring all interested colleagues (ESPGHAN members) along! If you have any other topic to discuss, let me know!

Agenda:

- Introduction and update of activities- Konstantinos Gerasimidis
- Nomination of secretary for the SIG
- 5 min presentation + 3 min discussion presentations:
 1. Feeding intolerance; a systematic review (Renate Eveleens)
 2. Nutrition and body composition in children with Cerebral Palsy (Jo Garvey)
 3. Micronutrient deficiencies and outcomes in children with congenital heart defects (Konstantinos Gerasimidis)
 4. Use of blenderised feeds in Toronto Sicks Children (Jessie Hulst)

Ongoing activities of the group

1. Position paper of ESPGHAN/ESPEN on paediatric malnutrition screening (Jessie Hulst)
2. Relationships of body composition in sick children plus other existing datasets opportunities (Konstantinos Gerasimidis and open to group for discussion)

Future activities of the group

1. Methodological considerations on development and validation of malnutrition screening tools. A SIG opinion paper (Konstantinos Gerasimidis)
2. Position paper on outcomes variables from nutritional interventions in sick children (Koen Huysentruyt)

- Any other business

Looking forward seeing you all in Glasgow!
