 Course in PGHaN	 Other

 Gastroenterology	 Nutrition
 Hepatology	 Young ESPGHAN

AHP Course

08:00–09:30 Lomond Hall

Session 1: Nutrition *(combined session with Course in PGHAN)*

Chairs Jackie Falconer, United Kingdom · Heather Grant, United Kingdom

08:00	Blended diet and enteral feeding; the perceived benefits, controversies and suggestions for clinical practice	Sarah Durnan, United Kingdom
08:30	Eosinophilic eosphagitis – medical and dietary treatment options	Diana Flynn, United Kingdom · Tracey Cardigan, United Kingdom
09:00	Old and new dietary treatments in Crohn's disease	Rotem Sigall-Boneh, Israel

09:30–10:00 Coffee Break

10:00–11:50 Alsh I + II

Session 2: Gastroenterology

Chairs Rut Anne Thomassen, Norway · Sarah MacDonald, United Kingdom

10:00	Motility – medical diagnosis, investigations and management	Michiel P. van Wijk, The Netherlands
10:30	Nursing management of rectal irrigation	Jenna Tarr, United Kingdom
10:50	Ethical considerations in feeding the neurological child with intestinal failure	Susan Protheroe, United Kingdom
11:10	Feeding the child with dysmotility	Tracey Johnson, United Kingdom
11:30	Update of the new ESPGHAN PN guidelines	Magnus Domellöf, Sweden

11:50–12:30 Alsh I + II

AHP Open Meeting

Chair Jackie Falconer, United Kingdom

12:30–13:30 Lunch Break

13:30–14:30 Alsh I + II

Session 3: Abstracts and innovative practice

Chairs Paula Crespo-Escobar, Spain · Kathleen Ross, United Kingdom

13:30	N-O-001	What impact does gastro-intestinal surgery have on the growth of very low birth weight preterm infants?	Hannah Duggan, United Kingdom
13:40	G-O-001	Long-term follow-up of gut-directed hypno-therapy self-exercises at home using CD versus individual therapy by qualified therapists in children with irritable bowel syndrome or functional abdominal pain syndrome	Robyn Rexwinkel, The Netherlands
13:50	N-O-002	Characteristics of polymeric formula and route of delivery of exclusive enteral nutrition have no effect on disease outcome and weight gain in children with Crohn's disease	Sara Sila, Croatia
14:00	G-O-002	Dietary therapies induce rapid response and remission in active paediatric Crohn's disease	Rotem Sigall-Boneh, Israel
14:10		The Scottish transition model in IBD	Victoria Garrick, United Kingdom

14:30–15:00 Coffee Break

15:00–16:30 Alsh I + II

Session 4: Joint Hepatology/GI session

Chairs Sara Mancell, United Kingdom · Tena Niseteo, Croatia

15:00	Nutritional management in Pancreatitis – latest guidelines (NICE and ESPGHAN)	Keith Lindley, United Kingdom
15:20	PN use pre liver transplant	Jonathan Hind, United Kingdom
15:40	Transplant aquired food allergy	Ruth De Bruyne, Belgium
16:00	Panel – difficult case – short gut syndrome Paul Henderson, United Kingdom Jonathan Hind, United Kingdom Elaine Buchanan, United Kingdom David Hoole, United Kingdom Catherine Paxton, United Kingdom	

17:00–18:00 Alsh I + II

The best papers this year in JPGN

Chairs Hania Szajewska, Poland · Mel Heyman, USA

17:00	Welcome and opening remarks	Hania Szajewska, Poland
17:02	The best gastroenterology papers	Johanna Escher, The Netherlands
17:10	The best nutrition papers	Hans van Goudoever, The Netherlands
17:18	The best hepatology papers	Piotr Socha, Poland
17:26	The best pancreatology papers	Michael Wilschanski, Israel
17:34	ESPGHAN guidelines in JPGN. Novelties	Lorenzo D'Antiga, Italy
17:42	My first JPGN paper accepted	Fiona Cameron, United Kingdom
17:50	JPGN 2014-2019: Where are we now? Where are we going?	Hania Szajewska, Poland
17:55	Informal discussion with the audience	All JPGN Editors

Clinical Course in PGHaN

08:00–09:30 Lomond Hall

Session 1: Nutrition *(combined session with AHP Course)*

Chairs Jackie Falconer, United Kingdom · Heather Grant, United Kingdom

08:00	Blended diet and enteral feeding; the perceived benefits, controversies and suggestions for clinical practice	Sarah Durnan, United Kingdom
08:30	Eosinophilic eosphagitis – medical and dietary treatment options	Diana Flynn, United Kingdom · Tracey Cardigan, United Kingdom
09:00	Old and new dietary treatments in Crohn's disease	Rotem Sigall-Boneh, Israel

09:30–10:00 Coffee Break

10:00–12:00 Lomond Hall

Session 2: Hepatology

Chairs Paul Henderson, United Kingdom · Rachel Taylor, Canada

10:00	Acute and long term management of oesophageal varices – who, when and where?	Ulrich Baumann, Germany
10:30	How to diagnose and treat acute liver failure	Valérie McLin, Switzerland
11:00	Surgical and medical treatment of infantile cholestasis	Suzanne Davison, United Kingdom
11:30	Diagnosis and new treatment options for hepatitis in children	Giuseppe Indolfi, Italy

12:00–13:00 Lunch Break

13:00–14:30 Lomond Hall

Session 3: Gastroenterology I

Chairs Susan Protheroe, United Kingdom · Billy Bourke, United Kingdom

13:00	Biologics and biosimilars: what should I choose and when?	Amit Assa, Israel
13:30	Basic and advanced care of patients with coeliac disease in 2019	Peter Gillett, United Kingdom
14:00	Investigation of common and rare cause of chronic diarrhea in children using case studies	Simon Murch, United Kingdom

14:30–15:00 Coffee Break

15:00–16:30 Lomond Hall

Session 4: Gastroenterology II

Chairs Jorge Amil Dias, Portugal · Nathalie Marie Rock, Switzerland

15:00	Everything you need to know about aerodigestive disorders in children	Paraic McGrogan, Qatar
15:30	Polyposis syndromes in children – recognition, management and prognosis	Shlomi Cohen, Israel
16:00	Recognising common and obscure diagnoses at endoscopy – an interactive quiz	Paolo Lionetti, Italy

17:00–18:00 Lomond Hall

Young ESPGHAN Session

> Details on page 33

IBD Course

08:00–09:30 Hall 1

Session 1: The basics

Chairs Christos Tzivnikos, United Arab Emirates · Dan Turner, Israel

08:00	Chairs' introduction	Dan Turner, Israel · Christos Tzivnikos, United Arab Emirates
08:05	The clinical relevance of PIBD classification	Sibylle Koletzko, Germany
08:30	So many genes in VEOIBD – how to bring to practice?	Aleixo Muise, Canada
09:00	From bench to our patients' mouth: nutritional therapy in Crohn's disease	Konstantinos Gerasimidis, United Kingdom

09:30–10:00 Coffee Break

10:00–12:00 Hall 1

Session 2: Treatment

Chairs Richard Russell, United Kingdom · Amit Assa, Israel

10:00	Does the evidence support proactive monitoring of anti-TNF levels?	Anne Griffiths, Canada
10:30	Unusual solutions for usual challenges in PIBD	Arie Levine, Israel
11:00	Who to choose for biologics at disease onset?	Frank Ruemmele, France
11:30	Practicalities in prescribing vedolizumab, ustekinumab and tofacitinib in children	Lissy de Ridder, The Netherlands

12:00–13:00 Lunch Break

13:00–14:30 Hall 1

Session 3: IBD Specialist topics

Chairs Annamaria Staiano, Italy · Jorge Amil Dias, Portugal

13:00	A clinical approach to pancreatic disorders in IBD	Michael Wilschanski, Israel
13:30	A tandem talk: stenotic Crohn's disease – when primary medical or surgical is appropriate?	Gregor Walker, United Kingdom · David Wilson, United Kingdom
14:00	Management of perianal Crohn's disease	Paolo Lionetti, Italy

14:30–15:00 Coffee Break

15:00–16:30 Hall 1

Session 4: Difficult cases

Chairs Anne Griffiths, Canada · Gregor Walker, United Kingdom · Dan Turner, Israel · David Wilson, United Kingdom

15:00	Relapsing and refractory UC	Iain Chalmers, United Kingdom
15:45	Managing the high risk Crohn's patient	Marina Aloï, Italy

Working Groups *(Members Only)*

09:00–10:00 Dochart II

Endoscopy SIG

Chair Mike Thomson, United Kingdom

09:30–12:30 Carron I

PreventCD meeting *(Invite Only)*

Chair Luisa Mearin, The Netherlands

10:00–12:00 Boisdale I

Esophageal Atresia WG

Chair Frédéric Gottrand, France

10:00–11:00 Carron II

Helicobacter Pylori *(Invite Only)*

Chair Patrick Bontems, Belgium

10:00–11:30 Dochart I

Network for Intestinal Rehabilitation and Transplantation in Europe (NITE)

Chair Jutta Koeglmeier, United Kingdom

10:00–11:30 Dochart II

European Reference Network RARE LIVER

Chair Ekkehard Sturm, Germany

11:00–12:30 Carron II

Helicobacter Pylori

Chair Patrick Bontems, Belgium

11:00–13:00 Fyne

Educational Task Force (*Invite Only*)

Chair Iva Hojsak, Croatia

12:00–13:00 Dochart I

Neonatal Nutrition SIG

Chair Hans van Goudoever, The Netherlands

12:00–15:00 Etive

Graft Injury Group (GIG) (*Invite Only*)

Chair Deirdre Kelly, United Kingdom

12:30–14:00 Boisdale I

GENIUS WG

Chair Frank Ruemmele, France

13:00–14:00 Carron I

Special Interest Group on Coeliac Disease Steering Committee (*Invite Only*)

Chair Carmen Ribes Koninckx, Spain

13:00–14:30 Carron II

Cystic Fibrosis and Pancreas WG

Chair Frank Bowedes, The Netherlands

13:00–15:00 Dochart I

Special Interest Group on Gut Microbiota & Modification

Chairs Hania Szajewska, Poland · Zvi Weizman, Israel

13:00–15:00 Dochart II

Eosinophilic Gastrointestinal Diseases (EGID) (*Invite Only*)

Chair Alexandra Papadopoulou, Greece

14:00–16:00 Carron I

Special Interest Group on Coeliac Disease (*Invite Only*)

Chair Carmen Ribes Koninckx, Spain

15:00–17:30 Dochart I

Neurogastro, Motility and Functional GI Disorders SIG/WG

Chair Silvia Salvatore, Italy

15:00–16:00 Dochart II

Eosinophilic Gastrointestinal Diseases (EGID)

Chair Alexandra Papadopoulou, Greece

15:00–16:00 Etive

Outcomes in Nutrition Trials WG (*Invite Only*)

Chair Merit Tabbers, The Netherlands

15:00–16:30 Fyne

International Registry of Congenital Porto-systemic shunts (IRCPSS)

Chair Valérie McLin, Switzerland

Wednesday, 05 June 2019

16:00–18:00 Carron I

Special Interest Group on Coeliac Disease (SIG-CD)

Chair Carmen Ribes Koninckx, Spain

16:00–16:30 Etive

Outcomes in Nutrition Trials WG

Chair Merit Tabbers, The Netherlands

16:30–18:00 Boisdale I

Porto IBD SIG

Chair Dan Turner, Israel

16:30–18:00 Carron II

Clinical Malnutrition WG

Chair Konstantinos Gerasimidis, United Kingdom

16:30–18:30 Dochart II

Polyposis WG

Chairs Shlomi Cohen, Israel · Warren Hyer, United Kingdom

16:30–18:00 Fyne

Basic and Translational Research and Epigenetics in Paediatric Gastroenterology, Hepatology and Nutrition SIG

Chair Andreas Jenke, Germany

17:30–18:30 Dochart I

Hepatology Interest Group

Chair Henkjan Verkade, The Netherlands

Wednesday, 05 June 2019 · 17:00–18:00 · Lomond Hall

Young ESPGHAN Session

Everything we know about writing and publishing, work and life, success and failure – a different Young ESPGHAN conversational session with contributions from her, me and you.

The presenter:

Helen McClory, PhD
Author

Helen has a PhD in literature and creative writing from the University of Glasgow.

Helen McClory lives in Edinburgh and grew up between there and the isle of Skye. Her first collection, *On the Edges of Vision*, was published by Queen's Ferry Press in August 2015 and won the Saltire First Book of the Year 2015. Her second collection, *Mayhem & Death*, was written for the lonely and published in March 2018.

Mayhem & Death is the matured, darker companion to *On the Edges of Vision* and shows McClory's ever expanding ability to envelop and entrance her readers with lyrical language of lore, stunning settings and curious characters. There is a moor and a cold sea in her heart.

Helen about herself:

'Part islander, part denizen of the 'city of Hume and Boswell' (and Burke and Hare, and by spirit, Jekyll and Hyde), I've lived in Sydney (for graduate studies) and in New York City, though for the moment I'm back in Edinburgh working on my next project and daydreaming of more travels.'

The Content:

Come and join us for a unique session organised by the Young ESPGHAN Committee!

Over the past fifty years the study of literature has become a generally accepted aspect of medical education. Literature is highly suited to assist learners in questioning conventional thinking and assumptions about various dimensions of work, life, professionalism, identity, and health.

Therefore, the seemingly separate universes of an author and a young doctor are sewed together in a conversation between Helen McClory and Line Modin, MD, PhD. who will interview Helen on stage and invite you to ask questions along the way.

This interactive session will be a diverse mix of literary performances, non medical and medical perspectives on writing and publishing, work and life and all the stuff that lies in between.

We genuinely look forward to invite you into a different session.

What to expect:

- Discussions on work life balance in an unbalanced world. Perspectives from a Scottish author
- How to finish, how to publish – how to prevent the paper from staying in the drawer ?
- The process of successful writing
- How to fail (successfully) in writing

Parallel Symposium
Monitoring in paediatric IBD

Chairs Patrick van Rheenen, The Netherlands · Sally Lawrence, Canada

14:30	Tight monitoring of disease activity of PIBD in clinical practice	Marina Aloj, Italy
14:55	G-O-007 Pharmacogenetics of anti-TNF therapy in paediatric Crohn's disease and ulcerative colitis. Comparison with adults	Sara Salvador-Martín, Spain
15:05	Capsule endoscopy or MRE for PIBD?	Dan Turner, Israel
15:25	The new Crohn's small and large bowel Capsule - new horizons	Salvatore Oliva, Italy
15:45	G-O-008 Pan-enteric capsule endoscopy in paediatric Crohn's Disease - the Ped-Pan study: preliminary results of a multicenter trial	Salvatore Oliva, Italy
15:55	G-O-009 A global prospective observational study in paediatric-onset IBD: the PIBD-SETQuality inception cohort	Martine A. Aardoom, The Netherlands
16:05	The clinical role of whole exome sequencing outside of VEOIBD setup	Aleixo Muise, Canada

14:30–16:30 Lomond Hall

Parallel Symposium: Dysphagia

Chairs Annamaria Staiano, Italy · Marc Benninga, The Netherlands

14:30	Pharyngeal dysphagia	Nathalie Rommel, Belgium
14:50	Achalasia	Maartje Singendonk, The Netherlands
15:10	G-O-010 Heller myotomy is more efficient than endoscopic dilatation for treating oesophageal achalasia in children: a retrospective multicentre study	Frédéric Gottrand, France
15:20	Eosinophilic oesophagitis	Osvaldo Borrelli, United Kingdom
15:40	Oesophageal atresia	Frédéric Gottrand, France
16:00	G-O-011 Clinical presentation of rumination syndrome in a tertiary/quaternary referral centre: the role of oesophageal high-resolution impedance manometry (HRIM)	Teresa Di Chio, United Kingdom
16:10	GERD: dysphagia from complications and treatment	Michiel P. van Wijk, The Netherlands

14:30–16:30 Hall 1

Parallel Symposium: The gut-liver axis

Chairs Girish Gupte, United Kingdom · Jörg Jahnel, Austria

14:30	Signaling pathways between liver and gut	Frank Bodewes, The Netherlands
15:03	H-O-003 Long-term follow-up of liver disease in children and young people with cystic fibrosis (CF) in the UK	Line Modin, United Kingdom
15:13	Management options for sclerosing cholangitis	Etienne Sokal, Belgium
15:46	H-O-004 Evaluation of defensins as markers of gut microbiota disturbances in children with obesity and non-alcoholic fatty liver disease	Aldona Wierzbicka-Rucińska, Poland
15:56	Gut and hepatic encephalopathy	Debbie L. Shawcross, United Kingdom

14:30–16:30 Hall 2

Parallel Symposium: Nutritional status – monitoring

Chairs Koen Huysentruyt, Belgium · Konstantinos Gerasimidis, United Kingdom

14:30	An update of nutritional screening tools for paediatric patients	Jessie Hulst, Canada
15:00	N-O-005 The interactive effect of prenatal iron deficiency and family economy education on children’s motor development in China	Jie Shao, China
15:10	N-O-006 Vitamin D in Brazilian paediatric population from North to South	Marcia Cavichio, Brazil
15:20	Pitfalls in nutritional assessment in sick or critically ill paediatric patients	Konstantinos Gerasimidis, United Kingdom
15:50	N-O-007 Comparison of Fenton intrauterine growth chart and INTERGROWTH-21 postnatal growth chart to assess growth restriction at birth and discharge in very low birth weight neonates	Susanta Kumar Badatya, India
16:00	Non-nutritional factors in determining nutritional status in chronic illness	Jarod Wong, United Kingdom

14:30–16:30 Hall 3

Live Endoscopy

Glasgow Chairs	Priya Narula (United Kingdom), Matjaž Homan (Slovenia)
Sheffield Endoscopists	Mike Thomson, Prithviraj Rao (United Kingdom)
Sheffield Surgeons	Sean Marven, Richard Lindley (United Kingdom)
Technical – Glasgow	Richard Hansen (United Kingdom)
Technical – Sheffield	Natalia Nedelkopolou, Shishu Sharma and Arun Urs (United Kingdom)

This is the **first live endoscopy symposium in ESPGHAN history** and something we hope will become a core component of future programmes.

Due to the nature of live endoscopy, we cannot give a precise programme with specific timings, however, we will be beaming live cases with commentary from two theatres in the International Academy for Paediatric Endoscopy Training, Sheffield Children’s Hospital across the course of the afternoon.

We expect to show cases including:

- **Laparoscopically-assisted endoscopic jejunostomy**
- **Endoscopic division of congenital duodenal congenital web**
- **Multiple polypectomy from PTEN hamartoma tumour syndrome**
- **Single stage percutaneous endoscopic gastrostomy button**
- **Argon plasma coagulation for anastomotic ulceration**
- **Over-the-scope clips and Hemospray for gastrointestinal bleeding**
(if case availability allows)

This will help to showcase some of the GI-surgical interface and also the approaches that prevent the need for formal surgical intervention.

An interactive debate on approaches with audience participation and an ongoing dialogue with the team performing the procedures is expected. We hope it will be instructive as well as stimulating and will be well attended, serving as a spring board for future years.

We advise interested delegates to attend early for this session, which we anticipate being busy.

16:30–17:15 Coffee Break

17:15–18:15 Clyde Hall

Parallel Session: Gastroenterology 1

Chairs Christos Tzivinikos, United Arab Emirates · Jochen Kammermeier, United Kingdom

17:15	G-O-012	Accurate classification of paediatric colonic IBD subtype using random forest machine learning classifier	Jasbir Dhaliwal, Canada
17:25	G-O-013	Delineating the phenotype of paediatric PSC-IBD using longitudinal data analysis	Amanda Ricciuto, Canada
17:35	G-O-014	Nationwide incidence and prevalence of paediatric inflammatory bowel disease in Scotland 2015-2017 demonstrates the highest paediatric prevalence rate recorded worldwide	Christopher J. Burgess, United Kingdom
17:45	G-O-015	The evolving role of biologic therapy in paediatric very early onset inflammatory bowel disease (VEO-IBD)	Eileen Crowley, Canada
17:55	G-O-016	Disease activity patterns during the first 5 years after diagnosis in children with ulcerative colitis: a population-based study	Marina Aloj, Italy
18:05	G-O-017	Clock gene disruption may be a causative event in inflammatory bowel disease flares and a target for treatment	Yael Weintraub, Israel

17:15–18:15 Lomond Hall

Clinical Practice in Hepatology

Chairs Nedim Hadzic, United Kingdom · Karen Murray, USA

17:15		Abnormalities in liver ultrasound: 1. what the radiologist sees	Stéphanie Franchi-Abella, France
17:30		Abnormalities in liver ultrasound: 2. OK... and now what?	Piotr Czubkowski, Poland
17:45		Infections of the liver: a practical approach	Giuseppe Indolfi, Italy

17:15–18:15 Hall 1

Parallel Session: Gastroenterology 2

Chairs Osvaldo Borrelli, United Kingdom · Alexandra Papadopoulou, Greece

17:15	G-O-018	Automated stool consistency scoring for non-toilet trained children by machine learning algorithms	Thomas Ludwig, Singapore
17:25	G-O-019	Plasma dosage of ghrelin and leptin related to gastric emptying time and esophageal pH-impedance parameters in obese children and adolescents	Letizia Zenzeri, Italy
17:35	G-O-020	Protocol adherence and behavior-related artefacts in paediatric high resolution manometry	Marin L. Leijdekkers, The Netherlands
17:45	G-O-021	Evaluation of probiotic Lactobacillus reuteri (DSM17938) for treatment of gastro-oesophageal reflux in preterm neonates: a prospective observational study	Girish Deshpande, Australia
17:55	G-O-022	Fibrostenotic phenotype in patients with eosinophilic esophagitis, is not exclusive of adults	Diana Marcela Montoya Villa, Spain
18:05	G-O-023	The prevalence of lymphocytic oesophagitis and of eosinophilic oesophagitis in children: a 5-year observational study in a tertiary care pediatric center	Aneta Szalacha-Szczur, Poland

17:15–18:15 Hall 2

Parallel Session: Nutrition 1

Chairs Alexandre Lapillonne, France · Nicholas Embleton, United Kingdom

17:15	N-O-008	Human milk oligosaccharide 2'-fucosyllactose more efficiently modulates immunogenicity during maturation of human dendritic cells in the presence of scGOS/lcFOS prebiotics	Saskia Overbeek, The Netherlands
17:25	N-O-009	Modulation of 3'SL level in pre-weaning milk impact attention, learning and memory in the adult offspring	Jonas Hauser, Switzerland
17:35	N-O-010	Maternal secretor status is associated with reduced incidence of respiratory infections in infants in the microbiota and health cohort	Olga Sakwinska, Switzerland
17:45	N-O-011	Combination of specific pre-and postbiotics in infant formula induces gut barrier maturation closer to mother's milk and supports gut functionality in mice	Mona Mischke, The Netherlands
17:55	N-O-012	Term infant formula supplemented with bovine milk-derived oligosaccharides shifts stool microbiota closer to that of breastfed infants	Jian Yan, Switzerland
18:05	N-O-013	Growth in infants with cow's milk protein allergy fed an amino acid-based formula	Yvan Vandenplas, Belgium

17:15–18:15 Hall 3

Parallel Symposium: Specialised Endoscopy

Chairs Prithviraj Rao, United Kingdom · Ilse Broekaert, Germany

17:15		POEM	Luigi Dall'Oglio, Italy
17:35	G-O-025	Polyp progression in paediatric patients with familial adenomatous polyposis syndrome – is annual surveillance required – a single center experience	Anele Chukwuemek, United Kingdom
17:45		The place of ERCP and EUS in children – who should perform it and why?	Douglas Fishman, USA

Plenary Session: Gastroenterology 1

Chairs Rok Orel, Slovenia · Carmen Ribes Koninckx, Spain

08:30	G-O-026	Maternal gluten and fibre intake during pregnancy and risk of childhood celiac disease: the Norwegian mother and child cohort study	Ketil Størdal, Norway
08:40	G-O-027	Potential celiac disease patients fail to express activating NK receptors and epithelial stress markers even those who will evolve to full-blown CD	Valentina Discepolo, USA
08:50	G-O-028	Current treatment of <i>Helicobacter pylori</i> infected children and adolescents in Europe: interim results of the new EuroPedHp registry	Thu Giang Le Thi, Germany
09:00	G-O-029	Intestinal-specific Reg4 deficiency ameliorates intestinal inflammation	Yongtao Xiao, China
09:10	G-O-030	Top-down Infliximab superior to step-up in children with moderate-to-severe Crohn's disease – a multicenter randomized controlled trial	Lissy de Ridder, The Netherlands
09:20	G-O-031	Alterations in T and B cell receptor repertoires patterns in patients with deleterious IL10/IL10 receptor mutations and history of infantile-onset IBD	Dror Shouval, Israel

→ 09:30	G-O-032	A phase I randomised, double-blind, placebo-controlled study to assess the safety and tolerability of (Thetanix®) <i>Bacteroides thetaiotaomicron</i> in adolescents with stable Crohn's disease	Richard Hansen, United Kingdom
09:40	G-O-033	Identification of serum protein biomarkers for non-invasive diagnosis of pediatric IBD using SOMAscan	Towia A. Libermann, USA

08:30–10:00 Lomond Hall

Plenary Session: Nutrition

Chairs Mary Fewtrell, United Kingdom · Magnus Domellöf, Sweden

08:30	N-O-014	Fecal metabolite profiles of mixed-fed infants are more similar to formula-fed than breastfed infants	Sharon Donovan, USA
08:40	N-O-015	Annurca apple extracts in treatment of children's hypercholesterolemia: double blind placebo controlled cross-over randomized study	Michele di Toma, Italy
08:50	N-O-016	Milk-derived exosomes (MDE) have a different biological effect on normal fetal epithelial colonic cells compared to colonic tumor cells in a miRNA-dependent manner	Shimon Reif, Israel
09:00	N-O-017	Dietary choline-containing phospholipids are associated with cognitive performance in school-aged children	Jian Yan, Switzerland
09:10	N-O-018	Early intervention with hydrolysed formulas is not protective against functional gastrointestinal disorders in adolescence – the GINI Study	Carla Patricia Harris, Germany
09:20	N-O-019	Effects of infant formula enriched with milk fat globule membrane (MFGM) and lactoferrin on the gastrointestinal microbiome and metabolome	Steven Wu, USA
09:30	N-O-020	Effect of long-chain polyunsaturated fatty acid supplementation of preterm infants on infection. A systematic review and meta-analysis	Miguel Saenz de Pipaon, Spain
09:40	N-O-021	Maternal and child gluten intake and risk of type 1 diabetes: the Norwegian mother and child cohort study	Ketil Størdal, Norway

08:30–10:00 Hall 2

Plenary Session: Hepatology

Chairs Ulrich Baumann, Germany · Jian She Wang, China

08:30	H-O-005	The contribution of variants in genes involved in bile acid metabolism to the progression of Non-alcoholic fatty liver disease in a paediatric cohort	Teresa Brunetti, United Kingdom
08:40	H-O-006	Effects of the ileal bile acid transport inhibitor A4250 on serum bile acids, pruritus and sleep in patients with Alagille syndrome: phase 2 study results	Ulrich Baumann, Germany
08:50	H-O-007	Factors associated with the natural course of disease in patients with FIC1-deficiency: the NAPPED-consortium	Daan van Wessel, The Netherlands
09:00	H-O-008	Biallelic mutations in RINT1 – a new cause of recurrent acute liver failure with onset in infancy and dysostosis multiplex	Dominic Lenz, Germany
09:10	H-O-009	Functional rescue of an ABCB11 variant by ivacaftor: a new targeted pharmacotherapy approach in bsep deficiency	Elodie Mareux, France
09:20	H-O-010	Bile duct injury in a toxic model of biliary atresia is mediated by genes in WNT and NOTCH signaling pathways	Orith Waisbourd-Zinman, Israel
09:30	H-O-011	Biodegradable biliary stent placement as treatment of anastomotic biliary strictures in paediatric patients with liver transplantation	Javi Juampérez, Spain
09:40	H-O-012	Impact of donor CYP3A5 genotype and graft size on tacrolimus pharmacokinetics in paediatric liver transplant patients	Michele Pinon, Italy

10:00–10:30 Clyde Hall

Keynote Lecture: Nutrition

Chair Magnus Domellöf, Sweden

10:00	The gut microbiome – maternal/fetal factors and health outcomes	Lars Engstrand, Sweden
-------	--	------------------------

10:30–11:15 Coffee Break

11:15–13:30 Clyde Hall

Clinical Practice in Gastroenterology

Chairs Rok Orel, Slovenia · Andrew Barclay, United Kingdom

11:15	Polyposis: topline from the guidelines	Warren Hyer, United Kingdom
11:50	Eosinophilic GI disease beyond the esophagus – to treat or not to treat?	Jorge Amil Dias, Portugal
12:15	Paediatric functional GI disorders: if drugs don't work... what else?	Marc Benninga, The Netherlands
12:40	Fecal microbiota transplantation – beyond C Diff	Richard Kellermayer, USA
13:05	Gastrointestinal allergy: contemporary approaches to diagnosis and management	Sibylle Koletzko, Germany

11:15–12:15 Lomond Hall

Parallel Session: Nutrition 2

Chairs Lorenzo Norsa, Italy · Jiri Bronsky, Czech Republic

11:15	N-O-022	Results of a 24-week phase III study of teduglutide in children with short bowel syndrome-associated intestinal failure (SBS-IF)	Susan Protheroe, United Kingdom
11:25	N-O-023	Low FODMAP diet is not effective in reducing symptoms of functional abdominal pain in children: a randomized, double-blind study	Katarzyna Miroslawa Boradyn, Poland
11:35	N-O-024	Effects of fish oil lipid emulsion compared with MCT/LCT lipid emulsion on intestinal failure associated liver disease (IFALD) in children	Ying Wang, China
11:45	N-O-025	Third trimester maternal choline supplementation improves child memory, attention, and problem-solving at age 7 years	Richard L. Canfield, USA
11:55	N-O-026	Serum bile acids perturbations induced by disturbed gut microbiota in a rat model of parenteral nutrition-associated liver disease	Ying Wang, China
12:05	N-O-027	The overload gut syndrome	Cecile Lambe, France

11:15–12:15 Hall 1

Parallel Session: Gastroenterology 3

Chairs Paolo Lionetti, Italy · Javier Martín de Carpi, Spain

11:15	G-O-34	CD-TREAT a novel dietary therapy of active Crohn's disease using the exclusive enteral nutrition paradigm	Vaios Svolos, United Kingdom
11:25	G-O-35	Crohn's disease exclusion diet is equally effective but better tolerated than exclusive enteral nutrition for induction of remission in mild to moderate active paediatric Crohn's disease: a prospective randomized controlled trial	Arie Levine, Israel
11:35	G-O-36	Exclusive enteral nutrition versus corticosteroid induction therapy for new onset paediatric Crohn's disease: comparison of 18 month outcomes in a Canadian prospective multi-centre inception cohort	Thomas D. Walters, Canada
11:45	G-O-37	Not so simple perianal Crohn's Disease! – operative intervention for perianal fissuring disease in South-East Scotland: an 18 year population-based cohort study	Cher-Antonia Khedim, United Kingdom
11:55	G-O-38	Efficacy, pharmacokinetics and immunogenicity is not affected by switching from Infliximab originator to a biosimilar in paediatric patients with inflammatory bowel disease	Karen van Hoeve, Belgium
12:05	G-O-39	Thiopurine enhancement using Allopurinol in the short and medium term in paediatric inflammatory bowel disease (PIBD) – paediatric IBD Porto group of ESPGHAN	Ali Hakizimana, United Kingdom

11:15–12:15 Hall 2

Parallel Session: Hepatology 1

Chairs Saul Karpen, USA · Deirdre Kelly, United Kingdom

11:15	H-O-013	Growth trajectories in Alagille syndrome from birth to early childhood: towards condition specific growth charts	Koen Huysentruyt, Belgium
11:25	H-O-014	Cholestasis decreases hippocampal dendritic spine density in an organotypic rat model	Laurianne Giovannoni, Switzerland
11:35	H-O-015	ATP7B and copper homeostasis genes in Wilson's disease by targeted next-generation sequencing	Annamaria Sapuppo, Italy
11:45	H-O-016	Predicting long-term outcome after surgical biliary diversion in BSEP-deficiency patients: results from the NAPPED consortium	Daan van Wessel, The Netherlands
11:55	H-O-017	Hepatoadrenal syndrome in cirrhotic children: does it exist?	Moinak Sen Sarma, India
12:05	H-O-018	Endoscopic variceal ligation as primary prophylaxis for upper gastrointestinal bleeding in children	Maria Mercadal-Hally, Spain

11:15–12:15 Hall 3

Parallel Session: Gastroenterology 4

Chairs Corina Pienar, Romania · Riccardo Troncone, Italy

11:15	G-O-041	Prospective longitudinal gut metagenomic analysis suggests altered microbiome composition and function in infants prior to coeliac disease onset	Francesco Valitutti, Italy
11:25	G-O-042	Growth of children with coeliac disease is compromised before the onset of the disease	Renata Auricchio, Italy
11:35	G-O-043	Helicobacter pylori infection in children with concomitant coeliac disease and type 1 diabetes mellitus	Burcu Volkan, Turkey
11:45	G-O-044	Analysis of glycosylated hemoglobin values in coeliac patients, compared with those of general population: a possible marker of an increased health risk?	Maria Bavastrelli, Italy
11:55	G-O-045	A novel homozygous CARMIL2 variant causes infantile colitis and eosinophilic disease without recurrent infections	Orly Eshach Adiv, Israel

12:30–13:30 Lomond Hall

Parallel Session: Nutrition 3

Chairs Cristina Campoy, Spain · Elvira Verduci, Italy

12:30	N-O-028	Frequency of gene variants of the leptin / melanocortin pathway in severe obesity	Béatrice Dubern, France
12:40	N-O-029	Validity of LATCH Score in predicting exclusive breast feeding and weight velocity at 6 weeks in healthy term Indian infants	Mubashir Hassan Shah, India
12:50	N-O-030	Pre-pubertal amino acid and lipid metabolism associates with glycaemic traits at adolescence	Francois-Pierre Martin, Switzerland
13:00	N-O-031	Adiponectin agonist treatment during pregnancy improves glycaemia but not lipid profile in diabetic rats and their offspring	Antonio Gázquez, Spain
13:10	N-O-032	Effectiveness of individual vs. group-based lifestyle intervention on anthropometric and metabolic profile of obese children	Elvira Verduci, Italy
13:20	N-O-033	Dietary patterns established early in life and their associations with cardiovascular risk factors in late childhood	Veronica Luque, Spain

12:30–13:30 Hall 1

Parallel Session: Gastroenterology 5

Chairs Jutta Koeglmeier, United Kingdom · Andreas Jenke, Germany

12:30	G-O-046	Early feeding in acute pancreatitis in children – a prospective randomised controlled trial	Shlomi Cohen, Israel
12:40	G-O-047	The way from abdominal pain to pediatric pancreatitis – the PINEAPPLE study	Dóra Mosztbacher, Hungary
12:50	G-O-048	The utility of ultrasound in cystic fibrosis related liver disease	Julie Dobbin, United Kingdom
13:00	G-O-049	An international multicentre validation study of the toronto listing criteria for pediatric intestinal transplant	Amin J. Roberts, New Zealand
13:10	G-O-050	Developmental and cognitive profile of children with intestinal failure	Riikka Gunnar, Finland
13:20	G-O-051	Muscle mass after intestinal transplantation in children is greater than in those on home parenteral nutrition	Kushila Rupasinghe, United Kingdom

12:30–13:30 Hall 2

Parallel Session: Hepatology 2

Chairs Mohammad Ali Shagrani, Saudi Arabia · Ekkehard Sturm, Germany

12:30	H-O-019	Shortened 8-weeks course of Sofosbuvir/ Ledipasvir therapy in adolescents with chronic Hepatitis C infection: a real-world experience	Daniele Serranti, Italy
12:40	H-O-020	Development and Validation of a novel, dynamic, etiology specific prognostic model (Peds-HAV) in 100 children with Hepatitis A induced pediatric acute liver failure	Bikrant Biharilal Raghuvanshi, India
12:50	H-O-021	A combined blood and MR imaging risk score for monitoring liver inflammation in paediatric AIH	Kamil Janowski, Poland
13:00	H-O-022	Cellular infiltrate and expression of IL-37 in pediatric AIH, PSC and ASC	Lucas Griessmair, Germany
13:10	H-O-023	Functional and immunometabolic analysis of liver derived MAIT cells in autoimmune liver disease	Suz Warner, United Kingdom
13:20	H-O-024	Preventative strategies against cytomegalovirus in paediatric liver transplantation: results from the European prospective multi-centre ChilSFree cohort study	Emanuele Nicastro, Italy

12:30–13:30 Hall 3

Parallel Session: Gastroenterology 6

Chairs Lissy de Ridder, The Netherlands · Rut Anne Thomassen, Norway

12:30	G-O-052	Treatment failure, safety, and immunogenicity of anti-TNF treatment in biologic-naïve children and adolescents with Crohn's disease: a subgroup analysis of the PANTS cohort	Neil Chanchlani, United Kingdom
12:40	G-O-053	Tolerability, safety, and efficacy of varicella-zoster-virus vaccination in immunosuppressed children with inflammatory bowel disease or autoimmunehepatitis	Carsten Posovszky, Germany
12:50	G-O-054	Nephrotoxicity of aminosalicylates in children and adolescents with inflammatory bowel disease (IBD)-data excerpt of CEDATA GPGE®	Angeliki Pappa, Germany
13:00	G-O-055	Neurological adverse events induced by tumour necrosis factor alpha inhibitors in paediatric inflammatory bowel diseases: an analysis based on the French National Pharmacovigilance Database	Valerie Bertrand, France
13:10	G-O-056	Final growth in paediatric Crohn's Disease is impaired also in the era of biologics: a population based analysis from the epiIIRN administrative cohort	Amit Assa, Israel
13:20	G-O-057	An ongoing safety registry to identify rare and severe complications in paediatric-onset IBD	Martine A. Aardoom, The Netherlands

13:30–15:15 Lunch Break & Poster Session incl. Poster Walks

15:15–17:15 Clyde Hall

Parallel Symposium: Functional GI-disorders

Chairs Nikhil Thapar, United Kingdom · Silvia Salvatore, Italy

15:15	Functional nausea, diagnosis and treatment	Katja Kovacic, USA
15:40	G-O-058 Pediatric PPI use and fracture risk	Nathan Fleishman, USA
15:50	G-O-059 Genetic factors influence on the development of functional constipation (FC) disease in children	Elżbieta Czkwianianc, Poland
16:00	Pain modulation in functional abdominal pain disorders	Qasim Aziz, United Kingdom
16:25	The effect of placebo in FGIDs	Arine Vlieger, Belgium
16:50	Allergy and FGIDs a true association?	Yvan Vandenplas, The Netherlands

15:15–17:15 Hall 1

Parallel Symposium: Contemporary management of PIBD

Chairs David Wilson, United Kingdom · Dan Turner, Israel

15:15	Managing PIBD in low resource setup	Almuthe Christina Hauer, Austria · Michael Lentze, Germany
15:40	PIBD ahead: predicting disease course in IBD and how to select children requiring biologics at disease onset	Anne Griffiths, Canada
16:05	Predicting response to anti-TNF in children	Nicholas Kennedy, United Kingdom
16:30	G-O-060 Vedolizumab is effective in real life paediatric inflammatory bowel disease: report from the prospective, multi-centre VEDOKIDS cohort study	Dan Turner, Israel
16:40	G-O-061 Proactive adalimumab trough measurements increase corticosteroid-free clinical remission in pediatric patients with Crohn's disease: the pediatric Crohn's disease adalimumab level-based optimization treatment (PAILOT) randomized controlled trial	Amit Assa, Israel
16:50	Will the new UC guidelines help me look after my patients? Examples from practice	Javier Martín de Carpi, Spain

15:15–17:15 Hall 2

Parallel Symposium: Liver transplantation

Chairs Françoise Smets, Belgium · Marianne Samyn, United Kingdom

15:15	The late post-transplant liver biopsy: towards standardisation	Stefan G. Hübscher, United Kingdom
15:48	H-O-025 Evolution of liver transplantation for children and adolescents in Europe – a report of the European liver transplant registry	Ulrich Baumann, Germany
15:58	Late graft injury – natural history and mechanisms	Steffen Hartleif, Germany
16:31	H-O-026 Early emergence of de novo donor specific antibodies in pediatric liver recipients are associated with T cell mediated rejection	Come Tissandier, Switzerland
16:41	Noninvasive assessment of fibrosis after liver transplantation: where do we stand?	Jonathan Fallowfield, United Kingdom

15:15–17:15 Hall 3

Parallel Symposium: Donor human milk

Chairs Judith Simpson, United Kingdom · Nicholas Embleton, United Kingdom

15:15	What is the evidence base for the use of donor milk in preterm infants?	Nicholas Embleton, United Kingdom
15:45	N-O-034 Postnatal longitudinal growth and reference growth charts for very preterm infants on predominant human milk feeding	Srinivas Murki, India
15:55	N-O-035 The preparation and storage of fortified expressed breast milk in neonatal units in England - a survey	Mandy Davies, United Kingdom
16:05	Protection of functional components during donor milk pasteurization	Jean-Charles Picaud, France
16:35	N-O-036 Effects of early use of donor human milk on growth, development and neonatal morbidity in very low birth weight infants: comparison to mother's own milk and preterm formula	Deepa Hariharan, India
16:45	Discussion: examples and challenges of national organisation of milk banking Sertac Arslanoglu, Turkey Hans van Goudoever, The Netherlands Jean-Charles Picaud, France Magnus Domellöf, Sweden	

17:30–19:45 Lomond Hall

08:30–10:30 Clyde Hall

Parallel Symposium:
Organoids: Cutting edge translational research tools in paediatric Gastro

Chairs Holm Uhlig, United Kingdom · Andreas Jenke, Germany

08:30	Intestinal epithelial organoids in GI health and disease	Matthias Zilbauer, United Kingdom
08:55	Genetic engineering of intestinal organoids	Bon-Kyoung Koo, Austria
09:20	G-O-062 Lin-28/Occludin axis: an aberrant signal leading to impaired intestinal barrier function under total parenteral nutrition	Junkai Yan, China
09:30	Drug development and personalised medicine in cystic fibrosis using intestinal organoids	Jeffrey M. Beekman, The Netherlands
09:55	Liver organoids as models to study human development and disease	Alexander Ross, United Kingdom

08:30–10:30 Lomond Hall

Parallel Symposium: Probiotics for infants

Chairs Flavia Indrio, Italy · Iva Hojsak, Croatia

08:30	The normal development of the infant gut microbiota	Christopher Stewart, United Kingdom
08:50	N-O-037 Daily administration of <i>Lactobacillus plantarum</i> improves mouse juvenile growth kinetics by sustaining somatotrophic axis activity upon undernutrition	Pierre Poinot, France
09:00	Probiotics in infant formula – what is the evidence?	Hania Szajewska, Poland

→ 09:20	N-O-038 Bifidobacterium with early feeding with colostrums and human milk benefits weight gain and metabolic responses associated with microbiota establishment	Yuichiro Yamashiro, Japan
09:30	Safety and quality control of probiotics	Sanja Kolaček, Croatia
09:50	N-O-039 Combination of prebiotic oligosaccharides and fermented infant formula (with <i>Bifidobacterium breve</i> C50 and <i>Streptococcus thermophilus</i> O65) is safe and modulates the gut microbiota towards a microbiota closer to that of breastfed infants	Dominique Turck, France
10:00	Probiotics for prevention of NEC	Hans van Goudoever, The Netherlands

08:30–10:30 Hall 1

Parallel Symposium: Novelties in Hepatology

Chairs Aglaia Zellos, Greece · Dominique Debray, France

08:30	Surgical developments in liver transplantation: what has changed and what is expected to change shortly	Dieter Clemens Broering, Saudi Arabia
09:03	H-O-027 USP53 mutation manifest as low-GGT intrahepatic cholestasis	Ye Yang, China
09:13	Liver directed gene therapy: current results	Amit C. Nathwani, United Kingdom
09:46	H-O-028 Mayo PSC risk score: a prognostication tool for Biliary Atresia outcomes in adulthood	Vandana Jain, United Kingdom
09:56	The liver and enzyme replacement therapy: to give or not to give?	Roshni Vara, United Kingdom

08:30–10:30 Hall 2

Parallel Symposium:
Coeliac disease: Diagnosis and screening for everybody?

Chairs Luisa Mearin, The Netherlands · Daniel Agardh, Sweden

08:30	Population screening: pros and cons	Carlo Catassi, Italy · Kalle Kurppa, Finland
09:20	The ethics of screening	Martine de Vries, The Netherlands
09:45	G-O-064 Value of anti-tTG IgA in screening of coeliac disease in asymptomatic children with high-risk	Ozlem Kalaycik Sengül, Turkey
09:55	G-O-065 How long children with a first-degree coeliac relative should be followed by antibody screening?	Ilma R. Korponay-Szabó, Hungary
10:05	The 2019 ESPGHAN guidelines for coeliac disease: consolidation of the no-biopsy approach	Steffen Husby, Denmark

10:30–11:40 Coffee Break & ePoster Session

11:40–12:10 Clyde Hall

Keynote Lecture: **Gastroenterology**

Chair Nikhil Thapar, United Kingdom

11:40	The brain in the gut: master conductor of the orchestra	Vassilis Pachnis, United Kingdom
-------	--	----------------------------------

12:10–13:25 Lomond Hall

Clinical Practice in Nutrition: Feeding disorders

Chairs Jessie Hulst, Canada · Iva Hojsak, Croatia

12:10	Feeding disorders: diagnosis, classification – a practical approach	Gillian Harris, United Kingdom
12:40	Feeding disorders: treatment (and the utility of a feeding team)	Tena Niseteo, Croatia
13:05	N-O-040 ARFID is a common diagnosis at a paediatric eating observation clinic	Lotta Söderberg, Sweden · Emma Gotthardsson, Sweden
13:15	N-O-041 Improving swallowing function due to electrical stimulation in group of children – preliminary results from an innovative method of treatment	Ewa Winnicka, Poland

12:10–13:25 Hall 2

Joint Symposium: **Nutrition and Gastroenterology**

Chairs Erasmo Miele, Italy · Konstantinos Gerasimidis, United Kingdom

12:10	Food additives and food industrialisation in the aetiology and progression of IBD	Arie Levine, Israel
12:30	The epidemiology of the role of diet in the aetiology of IBD	Andrew Hart, United Kingdom
12:50	G-O-073 Rapid reversion to baseline microbiome during food reintroduction after successful course of exclusive enteral nutrition (EEN) in paediatric Crohn's disease (CD)	Michael Logan, United Kingdom
13:00	N-O-042 Dietary intake and adherence to mediterranean diet in a cohort of pediatric patients with Inflammatory Bowel Diseases (IBD)	Caterina Strisciuglio, Italy
13:10	Exclusion diets in the management of IBD: how much and how good is the evidence?	Vaios Svoulos, United Kingdom

12:15–13:25 Clyde Hall

Plenary Session: Gastroenterology 2

Chairs Jernej Dolinšek, Slovenia · Emmanuel Mas, France

12:15	G-O-066	SOMAscan as a discovery platform to identify predictive serum proteomic biomarkers of infliximab response in pediatric patients with Crohn's disease	Tina Morhardt, USA
12:25	G-O-067	Panallergens in natural history of EoE: are they predictive of diet failure?	Monica Malamisura, Italy
12:35	G-O-068	Standard dosing of Infliximab dosing not sufficient in young paediatric IBD patients – a multicenter study	Maria Myrthe Jongsma, The Netherlands
12:45	G-O-069	SERPINB12 as a possible marker of steroid dependency in children with Eosinophilic Esophagitis: A pilot study	Salvatore Oliva, Italy
12:55	G-O-070	Correlation between antroduodenal manometry and histopathology in paediatric intestinal pseudo-obstruction	Atchariya Chanpong, United Kingdom
13:05	G-O-071	Constitutive alterations of vesicular trafficking predispose to innate immune response to gliadin in celiac disease	Maria Vittoria Barone, Italy
13:15	G-O-072	Characterization of Eosinophilic Esophagitis in a multicenter patient population from the European Pediatric Eosinophilic Esophagitis Registry (pEEr) of ESPGHAN	Salvatore Oliva, Italy

12:25–13:25 Hall 1

Parallel Session: Hepatology 3

Chairs Nedim Hadzic, United Kingdom · Norman Junge, Germany

12:25	H-O-029	Characterisation of different sources of stromal cells as support for primary human hepatocytes to improve the outcome of hepatocyte transplantation	Teresa Brunetti, United Kingdom
12:35	H-O-030	How to infuse heterologous human adult liver-derived progenitor cells safely?	Louise Coppin, Belgium
12:45	H-O-031	Hepatopulmonary syndrome in children: a two-decades experience at a single liver transplantation referral centre	Emanuele Nicastrò, Italy
12:55	H-O-032	Biallelic complete loss-of-function ZFYVE19 mutations: congenital hepatic fibrosis, sclerosing cholangiopathy, and high-GGT cholestasis	Chen-Zhi Hao, China
13:05	H-O-033	Magnetic resonance elastography in evaluation of hepatic fibrosis in children with chronic liver disease	Duygu Demirtas Guner, Turkey
13:15	H-O-034	Gallstone disease and heart rhythm disorders in children	Kseniya Yurchyk, Belarus

13:30–14:15 Clyde Hall

Closing Session and Award Ceremony
